

DEPARTMENT OF THE INTERIOR

U.S. GEOLOGICAL SURVEY

NEW INFORMATION RESOURCES OF THE U.S. GEOLOGICAL

SURVEY LIBRARY SYSTEM

NUMBER 7

NOVEMBER 1986

Open-file Report 86-400-J

This report is preliminary and has not been reviewed for conformity with the U.S. Geological Survey editorial standards.

1986

Emily Jane Perry has been appointed as the Library System's first Assistant Librarian for Automated Systems Management. She will assume this position the 5th of January. Most recently, she has been Assistant Systems Librarian, and Assistant Head of Cataloging and Acting Head of Exchange and Order. In addition to performing the duties of the position, Jane will undertake academic training and qualifying experience in preparation for the Full Performance Level.

\*\*\*\*\*

Elizabeth Yeates represented the Library at a Reston Branch Chief's meeting on November 6th. She briefed the participants on the following topics:

- o Plans and action to contain the serials budget. Members were assured that they would be consulted prior to the final decision on cancellation/suspension of titles.
- o The need for users assistance in obtaining certain publications for the Library.
- o The need for additional space (both short and long-term) within the Library.

\*\*\*\*\*

On November 6th, a group of approximately 35 persons from the Army War College Libraries visited the Reston Library. Ed Liszewski, who managed the event, scheduled a full day of presentations, tours, and demonstrations of the LS/2000 operations in each section.

\*\*\*\*\*

Elaine Bernd was selected as permanent office manager, personnel assistant, secretary, and general wonderworker to the Office of the Chief of the Library System. Elaine comes to us from the Branch of Igneous and Geothermal Processing, Geologic Division, Reston, where she was head secretary. She was a library technician for several years at the Defense Communications Engineering Center, so she is acquainted with libraries.

\*\*\*\*\*

Barbara Chappell, Robert Bier, Jacqueline Freeberg, Virginia Major, Carol Messick, Gertrude (Trudy) Sinnott and Dorothy Vitaliano attended the annual meetings of the Geoscience Information Society (GIS) and the Geological Society of America in San Antonio, Texas, November 10-14. Bob is incoming president of GIS. Barbara was in charge of the Library exhibit--a first for GSA. Carol was the USGS representative to the AGI Serials Committee. Barbara, Carol, Trudy, and Virginia staffed the Survey exhibit.

\*\*\*\*\*

On November 18th and 19th Elizabeth Yeates attended a seminar, "Toward the 1989 White House Conference on Library and Information Services," jointly sponsored by the Federal Library and Information Center Committee (FLICC) and the National Commission on Libraries and Information Service.

\*\*\*\*\*

William O. Field, prominent glaciologist, and Suzanne Brown of the USGS Project Office, visited the Photographic Library and Field Records collection on November 12th. Field and Brown are compiling a history and listing of all camera stations occupied in the Glacier Bay, Alaska, area from the time of John Muir to the 1950's.

\*\*\*\*\*

Keith Estes in the Exchange and Order Section received a letter of appreciation from Joseph F. Caponio, Director of the National Technical Information Service for his participation in the NTIS online order system set-up. "Without your help, we would not have been able to offer this service," wrote Dr. Caponio.

\*\*\*\*\*

Eleanore Wilkins gave an informal talk to the Northern California Documents Librarians at their fall meeting at the University of California, Berkeley Campus on November 7th.

\*\*\*\*\*

Libraries in the Geological Survey Library System are located in the Eastern, Central, and Western Regions. Personnel whose duty station is other than Reston, Denver, Menlo Park or Flagstaff, may borrow items by completing an Accessions List Loan Request form and mailing it to the Survey Library in their Region if the item is available there or to the nearest Survey Library holding the item if it is not. Personnel whose duty station is Reston, Denver, Menlo Park or Flagstaff should continue to request items as they are accustomed to doing.

If a library is unable to fill a request immediately because its copy of the item is charged out or otherwise unavailable for loan, the request will be forwarded to any Survey Library which may be able to supply a copy. If no copy is available for immediate loan, the requester's name will be placed on a waiting list and the publication dispatched as soon as it becomes available. Publications with a waiting list are loaned for two weeks only; those without are loaned for thirty days. If there is no waiting list, the loan period may be extended by contacting the lending library prior to the expiration of the loan period and requesting a renewal.

In filling out the Loan Request form, it is essential that requesters include their (1) Division/Office/Branch affiliation, (2) complete mailing address, and (3) phone numbers, both commercial and FTS. Typing or printing such information will help avoid unnecessary delays in processing requests. Loan Request forms will be found at the end of each List; they should be duplicated if additional copies are required. A separate form should be used for each item requested.

Questions regarding entries in the List or the information to be supplied on the Loan Request form should be referred to the Library located in the same Region as the requester's duty station.

<u>Eastern Region</u>	<u>Central Region</u>	<u>Western Region</u>
Reston Library (703) 648-4302 4303	Denver Library (303) 236-1000	Menlo Park Library (415) 323-8111, ext. 2207
FTS 959-4302 4303	FTS 776-1000	FTS 467-2207
		Flagstaff Library (602) 527-7008
		FTS 765-7008

Suggestions and comments about this service are welcome and should be sent to:

GISSat SEE NEXT CRD

DI-GS 14 JUL 83 EJP

GISSat

The above is a photocopy of a main entry card which is representative of the format arrangement appearing on cards filed in the Reston, Denver, Menlo Park and Flagstaff Library catalogs.

Appropriate information is selected and reformatted to produce subject-arranged entries similar to the following.

COSMOCHEMISTRY--CONGRESSES.  
730.3C822

Title main entry

GISS Cosmochemistry and the origin of life  
: proceedings of the NATO Advanced Study  
Institute held at Maratea, Italy, June 1-  
12, 1981. 1983

Additional explanation beyond that provided by the preceding examples seems appropriate.

Each entry consists of the following components which always appear in the order given: (1) Principal subject heading, always capitalized; (2) Main entry, which may be a personal author, corporate author, or title; (3) Title (if the main entry is either a personal or corporate author); (4) Imprint; (5) USGS call no., always located in the lower left and the last component in each entry.

The call number on catalog cards normally consists of two or more lines of a combination of letters and numbers, arranged in the following manner:

G(253)  
F46  
v.37  
no.4  
D,MP

In the Accessions List the same number appears in a straight line. There are no spaces to show where the call no. lines are broken on the catalog cards: G(253)F46v.37no.4D,MP

Call numbers prefixed with "M" indicate item is part of the map collection.

Call numbers prefixed with "R" indicate item is part of the Library's Reference collection. These items normally do not circulate.

Capital letter suffixes denoting which libraries (D = Denver, MP = Menlo Park, and F = Flagstaff), other than Reston, hold a particular item, follow the call no. and are set off from it by a space. Please note that no letter suffix is employed for Reston, which should be understood to hold the item unless otherwise indicated. In the call no. above, the Reston, Denver, and Menlo Park libraries each have this item.

If a library, other than Reston, is the sole holder of an item, the suffix statement will reflect that fact; for example: F only.

Occasionally an item will not be assigned a call no., receiving instead an alpha abbreviation, such as PAM = pamphlet or MICRO = microform. In such entries, that designation occupies the space normally set aside for the call no. When completing the Loan Request form, alpha abbreviations should be recorded on the call no. line.

**TO: Recipients of the USGS Library New Information Resources Lists**

Please use this coupon to make recommendations for publications to be added to the collections within the Survey Library system.
